DETAILED ACTION

Response to Amendment

1. Amendment filed February 21, 2003 is acknowledged.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

3. Claims 1-12 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Utter et al. (6,126,961).

Utter et al. discloses a method of generating a water spray using nozzle 34 and air discharge tube 21. Utter et al. discloses various air flow speeds in column 1, lines 40-55 and column 3, lines 50-60. Applicant discloses in the specification, page 9, line 17, "nozzle 6, which is also of conventional design". It would have been obvious to a person having ordinary skill in the art at the time of the invention to have used conventional nozzles and various fans speed (air flow speed) in the device of Utter et al. for desired spray parameters and characteristics dependent on application.

Response to Arguments

4. Applicant's arguments filed February 21, 2003 have been fully considered but they are not persuasive.

In response to applicant's argument that one would not be motivated to use the conventional nozzle (as disclosed by applicant) in the device of Utter et al. '961 because '961 discloses using an atomizing spray heads (col. 4, lines 6-7) that provide a finely divided, atomized water vapor mist, '961 does not preclude the use of applicant's disclosed conventional nozzle. '961 does not define the term "finely divided water vapor" to any particular droplet size nor does it exclude any particular droplet size.

In response to applicant's argument that the Examiner cannot use applicant's own disclosure to show obviousness, see MPEP 2129. Applicant recites, in the specification on page 9, line 17, "nozzle 6, which is also of conventional design."

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
